

General Info

Checkpoint VPN is our standard VPN Software. It is sometimes necessary to connect to the company's VPN network in order to use certain applications and websites.

Details/Steps

1. **Make sure that you are connected to the internet using either LAN Cable or WIFI.**
Any network that has internet connectivity will work. You can validate that you have internet connection by opening Microsoft Edge and browsing to Apple.com website.
2. To start a VPN connection, find the **Check Point Mobile** application through the following:
 - From the System Tray, locate the **Check Point Mobile** icon.

- From the **Start Menu Group**, click **Start > All > Check Point Mobile**.

- In **Apps**, click **Start > Settings > Apps > Installed apps**.

3. From the **System Tray**, right-click the **Check Point Mobile** icon.
4. Click **Connect**.

5. Sign in with **LDAPID@safeway.com**, then click **Next**.

6. Sign in with your **user ID and password**. You may be asked to validate with your **Multi-factor Authentication (MFA)**.

7. Once connected successfully, a **Welcome: Authenticated by your Identity provider** message will pop up.

If you need further assistance, please call the Service Desk (1-877-286-3200) and a member of your local IT staff will assist.
